PROFESSIONAL SUMMARY

Motivated Computer Science undergraduate specializing in Data Science with strong foundations in programming, networking, and cybersecurity fundamentals. Passionate about developing efficient software solutions and applying analytical thinking to real-world challenges.

EDUCATION

National Institute of Science and Technology Aug 2024 – Oct 2025
B.Tech in Computer Science Engineering (Data Science Specialization)
Berhampur, Odisha

TECHNICAL SKILLS

- **Programming:** C, Python
- **Core Concepts:** Data Structures, OOP Basics, Networking Fundamentals
- **Database:** MySQL (Basic)
- **Tools:** VS Code, Git, GitHub
- **Operating Systems:** Linux, Windows

PROJECTS

IoT-Based Non-Intrusive Energy Monitoring and Anomaly Detection System 2025

- Designed an IoT-based system to monitor electrical energy consumption without intrusive hardware changes.
- Implemented anomaly detection logic to identify irregular energy usage patterns.
- Applied data analysis techniques for improved monitoring efficiency.

Network Traffic Monitoring System 2025

- Developed a tool to observe and analyze incoming and outgoing network traffic.
- Applied networking fundamentals to detect unusual activity patterns.
- Strengthened understanding of cybersecurity monitoring techniques.

Decision Maker System 2025

- Built a rule-based decision support system using structured conditional logic.
- Implemented modular programming practices to enhance scalability.
- Improved logical reasoning and algorithmic problem-solving skills.

Password Strength Checker 2025

- Developed a password validation tool to evaluate strength using rule-based scoring.
- Implemented checks for length, complexity, and special characters.
- Classified passwords into Weak, Moderate, and Strong categories.

Programming Practice Repository 2024 – Present

- Developed multiple logic-building programs in C and Python.
- Practiced implementation of arrays, file handling, and structured programming concepts.
- Maintained GitHub repository for version control and code organization.

EXPERIENCE

Central Tool Room & Training Centre (CTTC)

July 2025

Student Trainee – Berhampur, Odisha

- Completed technical training focused on programming and software development concepts.
- Participated in hands-on coding sessions to strengthen analytical skills.
- Gained exposure to professional work practices and documentation.

CERTIFICATIONS

- Python Course – CTTC, Ministry of MSME
- Python Workshop – AI Academia
- Python 101 for Data Science – IBM Developer Skills Network (CognitiveClass.ai)
- C Essentials 1 – Cisco Networking Academy
- Cybersecurity Analyst Job Simulation – Tata (Forage)
- Cyber Job Simulation – Deloitte (Forage)
